REMARKS

We hereby respectfully petition the Commissioner under 37 C.F.R. § 1.78(a)(3) to accept an unintentionally delayed benefit claim. The failure to timely file a specific reference to perfect the benefit claim was inadvertent and unintentional.

We submit that the entire delay in filing the proper benefit claim from the due date for the required claim, until the filing of this petition under 37 C.F.R. § 1.78(a)(3) was unintentional. Submitted herewith, in accordance with 37 C.F.R. § 1.78(a)(3), are the following:

Patent 7,188,138 B1
Issued March 6, 2007
REQUEST FOR CERTIFICATE OF CORRECTION OF PATENT

- (1) Certificate of Correction, United States Patent and Trademark Office Form SB/44, to provide the specific reference necessary to perfect the benefit claim; and
- (2) Petition fee set forth under 37 C.F.R. § 1.17(t) charged to our Deposit Account No. 06-1135 in the amount of \$1,410.00.

This renewed petition is in response to the Patent Office's dismissal of the Renewed Request for Certificate of Correction filed March 26, 2010. Please note that the Decision was mailed to the wrong address; please verify that the correct correspondence address for this matter is that which is recited at the conclusion of this paper which corresponds to the attorneys of record for this matter.

The petition was denied because of a lack of copendency between U.S. Patent Application Nos. 09/683,481 and 10/604,626. We co-filed a Petition for Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(b) in U.S. Application No. 09/683,481 to establish copendency with U.S. Patent Application No. 10/604,626. The revival of U.S. Application No. 09/683,481 will correct the lack of copendency and make the priority claims in the Certificate of Correction proper.

Allowance of this petition and the entry of the Certificate of Correction with the proper sequence of priority references for a claim for the benefit of an earlier filing date is respectfully requested after granting of the petition co-filed in U.S. Application No. 09/683,481.

The Commission is hereby authorized to charge any additional fees which may be required in this patent to Deposit Account No. 06-1135.

Please send the Certificate to:
